

COVID-19 Vaccinations for Children

Join CAMH's virtual webinar for parents and caregivers about the COVID-19 vaccines for children age 5 to 11. Learn the facts in easy to understand language.

Topics covered include:

- What's in the vaccines and how they work
- How well vaccines protect children and others around them
- Common side effects
- Issues around consent and capacity

Question and answer period will follow the presentation.

About the presenters:

Renee Logan is a family doctor, hospitalist in the Division of Medicine in Psychiatry, Medical Lead for the COVID-19 vaccine clinic, and Medical Director for infection prevention and control at CAMH. She is a lecturer in the Department of Family and Community Medicine at the University of Toronto.

Daniel Buchman is a bioethicist and independent scientist at CAMH, an Assistant Professor in the Dalla Lana School of Public Health, and member of the Joint Centre for Bioethics at the University of Toronto. Daniel is a Board member of the Canadian Bioethics Society, the Canadian Institutes of Health Research Standing Committee on Ethics, and sits on the CAMH COVID-19 Vaccine Clinic Committee.

**This session will be moderated by:
Sanjeev Sockalingam, Vice President of Education at CAMH.**
