JULY 30, 2019

CAMH invites applications for nomination to one Tier 2 Canada Research Chair in the area of mental health and/or addictions research. Applicants must have an internal CAMH scientific appointment (or be in the process of obtaining one), and must be Assistant or Associate Professors at the University of Toronto.

Tier 2 Chairs are for emerging scholars and the successful Nominee should be within ten years of receiving their PhD (or highest degree equivalent). To meet the criteria of the program, nominees must be excellent emerging world-class researchers who have demonstrated particular research creativity; have demonstrated the potential to achieve international recognition in their fields in the next five to ten years; as chairholders, have the potential to attract, develop and retain excellent trainees, students and future researchers; and be proposing an original, innovative research program of high quality.

Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental or extended sick leave, clinical training, etc.) may have their eligibility for a Tier 2 chair assessed through the program’s Tier 2 justification process.

Applications should include: 1) a 1-page description of the quality of the Nominee, 2) a 1-page summary of your proposed research program; 3) a curriculum vitae; 4) if you are more than 10 years from having earned your highest degree, an explanation of why you feel you qualify for a justification as described in the link above; and 5) a self-identification survey (see below).

Applicants should refer to the CRC Tier 2 Chair selection criteria when preparing their application materials. All materials must be submitted to grants.awards@camh.ca by September 20, 2019.

For more information about this specific CRC opportunity, please contact Tara McDonald, Manager, Grants & Awards (tara.mcdonald@camh.ca).

Further information regarding nomination and eligibility criteria may be found here. For more information about the CRC nomination process at the University of Toronto and affiliated hospitals, contact Judith Chadwick, Assistant Vice-President, Research Services (crc@utoronto.ca) or visit www.research.utoronto.ca/crc.

CAMH recognizes that scholars have varying career paths and that career interruptions due to personal circumstances can be part of an excellent academic record. Search committee members have been instructed to give careful consideration to, and be sensitive to the impact of, career interruptions in their assessments.
As an employment equity employer, CAMH especially welcomes applications from women, visible minorities, Indigenous persons, persons with a disability, LGBTQ2S+ persons, and members of other equity-seeking groups.

CAMH is committed to providing an accessible working environment for persons with disabilities through the identification and elimination of barriers. This includes respect for dignity, independence, integration and equal opportunity as recognized in our policies and the Accessibility for Ontarians with Disabilities Act, 2005 (AODA). Requests for workplace accommodations and related issues can be addressed to Bill Manley, Director, People and Experience (Bill.Manley@camh.ca).

The Canada Research Chairs Program requires institutions to collect self-identification data from all applicants, following the program’s best practices. This data is important to CAMH’s ability to ensure that researchers from diverse groups are able to benefit from participation in the program. All applicants to this CRC opportunity are required to complete the Research Services Office self-identification survey. Applicants are encouraged to self-identify in any of the groups where applicable. While completion of the survey is required, providing answers to the individual survey questions is voluntary, and applicants can log a response indicating that they decline the survey. Applicants who have not completed the survey will not be considered for this CRC opportunity.

Any information directly related to you is confidential and cannot be accessed by search committees or human resources staff. Aggregated and anonymized data regarding the applicant pool will be reported only to the chair of the selection committee, the committee’s equity advisor, and a small number of staff members in the Research Services Office, for purposes of program administration and to meet reporting requirements.
