

2024 womenmind Postdoctoral Fellows

Dr. Pavithra Suresh

Project Title: Investigating the molecular mechanisms underlying a novel therapeutic in development for treating cognitive deficits in Alzheimer's disease and depression. (Neurotrophic Effects of alpha 5-Gamma-Aminobutyric Acid (GABA)-A Receptor Potentiation)

Supervisor: Dr. Etienne Sibille

Dr. Carla Elena Mezo-Gonzalez

Project Title: Impact of Maternal Obesity on the Development of Depression in Offspring and its Association with Changes in the Gamma-Aminobutyric Acid-ergic (GABAergic) System

Supervisor: Dr. Thomas Prevot
